Thank you for submitting your statistical worksheets.

The formative is completed to an excellent standard, reflecting the appropriate statistical outcomes and variables from the questions posed in the formative, and the exercises responded to in Units 8 and 9.

Responses are quantitatively thorough, with qualitative discussion added to consolidate quantitative findings. Statistics are a key part of the Unit 12 e-portfolio, and this is a good example regarding how to reflect extensive statistical information responding to a formative that will then become an artefact for your e-portfolio.

Please now add this formative outcome as an artefact to your final e-portfolio, as this artefact is an ESSENTIAL part of the e-portfolio, which is graded as a summative outcome in Unit 12.

With best wishes

Karen
